American Heart Association® Center for Health Technology & Innovation

Greetings,

The Center for Health Technology & Innovation (CHTI) is excited to share our latest news, initiatives and events. Visit <https://ahahealthtech.org/> to learn more about the Center and all the resources available to you.

Welcome New Innovators' Network Members

The Innovators' Network is a fee-based consortium of industry entrepreneurs, providers and health systems, researchers, pharma, device manufacturers, community and social support networks and payors.

Membership offers research collaboration, AHA brand affiliation, access to a network of volunteer and industry experts and participation at AHA industry events.

- [Betterleave](#) – Combines tech-enabled support, clinical mental health expertise with deep platform analytics to measure and deliver high-quality bereavement care and outcomes.
- [Decentralized Biotechnology Intelligence Co Ltd \(dBio\)](#) – Revolutionizing exercise and health management through cutting-edge innovations that integrate artificial intelligence (AI), the Internet of Things (IoT), and microsensors.

- [FirstHX](#) - Develops AI-powered patient intake solutions to help streamline the process of taking a patient's medical history.

Join us in welcoming our newest members of the Innovators' Network!

Members with non-product news (e.g., funding, trials, publications, executive hires), please submit via the AHA Innovators' Network Member News and Updates [Form](#) on CHTI's [website](#). Approved submissions will be published on [ahahealthtech.org](#) and/or LinkedIn.

Learn more about becoming a member of the Innovators' Network and view all members [here](#).

AHA Innovators' Network Member Noah Labs Secures Funding Round

We're excited to announce that Innovators' Network Member Noah Labs has successfully raised €3 million in equity and grant funding, led by Nina Capital, with support from adesso ventures, the DHZB Foundation, and notable business angels. The grant was awarded by the Investitionsbank des Landes Brandenburg (ILB) for Noah Labs' innovative research.

This investment accelerates the roll-out of Noah Labs Ark, an AI-powered platform for telemonitoring cardiovascular patients. Cleared as a class IIa medical device under MDR, it enables seamless remote monitoring of vital signs, helping doctors detect early deterioration and improve outcomes.

2024 Update: A Scientific Statement from the American Heart Association and the American Association of Cardiovascular and Pulmonary Rehabilitation

Since the 2007 update by the American Heart Association and American Association of Cardiovascular and Pulmonary Rehabilitation, there have been important advancements in cardiac rehab and preventing heart disease. New care options, like virtual and remote rehab services, have made these programs more accessible to patients. This updated guide focuses on key parts of cardiac rehab: patient assessments, nutrition, weight management, heart disease management, emotional support, exercise and physical activity counseling. It also highlights the need for programs to regularly check their effectiveness and improve where needed, helping to increase participation and reduce health disparities in access to cardiac rehab.

Where Innovation Meets Science: Health Innovation Pavilion at Scientific Sessions 2024

Celebrate our Centennial with us at Scientific Sessions! The Center for Health Technology and Innovation is excited to host the Health Innovation Pavilion (HIP) at Scientific Sessions 2024 — #AHA24.

We will explore the leading edge of innovation and collaboration in the cardiovascular and digital health space.

Over the course of three days, the HIP will feature a robust program of thought leadership, provocative panel discussions, demonstrations of cutting-edge technology and idea exchange in cardiovascular and brain health innovation.

And you don't want to miss the ever popular [AHA Health Tech Competition](#).

Join us as we explore solutions that span the cardiovascular health spectrum, with the goal of leveraging health tech for longer, healthier lives.

Check out our HIP [agenda](#)!

Time Is Running Out! Act Fast to Secure Your Spot in the Health Innovation Pavilion @ Scientific Sessions 2024

Space is filling up fast for your company to exhibit at the 2024 Health Innovation Pavilion (HIP) @ Scientific Sessions 2024! Don't miss the chance to position your brand at the center of innovation during AHA's Centennial Celebration. Secure your spot now to take advantage of the marketing benefits that come with exhibiting in the HIP.

To learn more, contact Jeff at Jeff.Makowka@heart.org. Act quickly—you don't want to miss this opportunity!

Go Red for Women Venture Fund -- Accelerating Science-to-Action for Women's Health

The Go Red for Women Venture Fund (Go Red Fund) invests across a spectrum of cardiovascular health, brain health and related conditions with the goal to improve women's health at every age, stage and season of life.

The Go Red Fund invests in companies that are translating evidence-based science and clinical expertise into products and services that are specifically intended to drive better health access and outcomes for women. By combining science with the financial resources required to spark real-world change, the Go Red Fund supports companies that advance women's health. [Learn more](#) about AHA Ventures (AHAV).

Big News: 2 AHA Heart & Brain Tech Companies Named MedTech Innovator Finalists!
